

BAREFOOT NETWORKS, INC.
SOFTWARE EVALUATION LICENSE

THIS SOFTWARE EVALUATION LICENSE is being granted by Barefoot Networks, Inc. (“Company”) having a principal place of business located at 2183 Park Blvd., Palo Alto, CA 94306 pursuant to a Software Evaluation License Agreement executed between you and Company.

Company is developing an integrated circuit product (the “Barefoot Chip”) for use in networking equipment together with a Software Development Environment (SDE) software product described in Attachment A (the “Barefoot SDE”) which networking equipment vendors can use to evaluate the interoperability of their networking equipment operating system software with the Barefoot Chip (the “Evaluation”);

You hereby agree as follows:

1. Evaluation License. Subject to the terms set forth herein, Company hereby grants Participant a personal, nonexclusive, revocable and nonassignable license to use Barefoot SDE for internal use solely for the purpose of Evaluation at Participant’s facilities only.
2. Confidentiality. The Barefoot SDE and associated documentation and materials delivered by Company shall be deemed as Confidential Information
3. Open Source. The open source components of the Barefoot SDE, identified as such in Attachment A, are subject to the provisions of the open source licenses identified as associated therewith in Attachment A, notwithstanding anything to the contrary in this license.
4. Intellectual Property. Company, and as applicable its licensors, own all intellectual property rights in and to the Barefoot Chip and the Barefoot SDE and any modifications and improvements thereto made by the Company.
5. Limitation of Liability. The Barefoot SDE and associated documentation and material is provided to Participant “as is” without any warranty or guaranty, express or implied,

including warranties of merchantability, fitness for a particular purpose, and noninfringement of third party rights. Barefoot shall not be liable to any party who uses the Barefoot SDE for any monetary damages of any kind.

6. Support and Commercialization Disclaimer. Company will exercise commercially reasonable efforts to provide such support for the Barefoot SDE during the term of this license as it deems appropriate in view of the structure of the Evaluation and the progress being made thereunder. However, except as may otherwise be agreed to in a subsequent written agreement, Company has no obligation except as expressly provided herein, including without limitation any obligation to commercially introduce or support any particular version of the Barefoot SDE or the Barefoot Chip.

7. Termination. Either Party may terminate this license with immediate effect upon giving notice thereof to the other Party. Sections 2 through 5 and 8 will survive the expiration or earlier termination of this license.

8. Miscellaneous. This license is the entire Agreement between the Parties with respect to the evaluation of the Product, superseding all previous agreements and understandings, written or oral. It may be amended only by a writing signed on behalf of both Parties. This license is governed by the laws of the State of California, excluding its conflict of laws provisions.

Attachment A

Description of Barefoot SDE

The Barefoot Software Development Environment (SDE) is a collection of software which enables the integration and interoperability testing of a network operation system for networking equipment.

The Barefoot SDE contains the following high level pieces of software:

- P4 Switch Reference Code & Libraries
- P4 Toolchain – Compilers and Visualization Tools
- Simulation Models
- Test Framework
- Build, Packaging and Environment Setup Scripts

Below is the directory structure of the package and the associated licenses.

Directory	Description	License
p4factory	P4 compilation framework	NA
modules		NA
bfns_common	Redis DB to maintain node location	Barefoot SLA
common	Common utilities for all targets	Barefoot SLA
lg_utils	Utilities for behavioral model	Barefoot SLA
submodules		NA
switchapi	LibL2L3 library	Barefoot SLA
switchlink	BFNetlink driver	Barefoot SLA
bigcode	Open source modules from Project Floodlight	EPL v1.0
indigo	Open source modules from Project Floodlight	EPL v1.0
infra	Open source modules from Project Floodlight	EPL v1.0
oft-infra	Open source modules from Project Floodlight	OpenFlow Software License
p4c-behavioral	P4 compiler for behavioral model	Barefoot SLA
p4c-graphs	P4 dependency graph generator	Barefoot SLA
targets		NA
switch	Reference P4 program for switch data plane	Barefoot SLA
basic_routing	Basic P4 implementation for IPv4 Routing	Barefoot SLA
tools	Various setup scripts	Barefoot SLA
glass-hlir	P4 Frontend compiler	Barefoot SLA
scapy-vxlan	Scapy with VXLAN support added	GPLv2
